

MANH HUNG NGUYEN

PERSONAL INFORMATION

Email: manguyen@mpi-sws.org, Tel: +49 152 0951 4985
[Homepage] [Google Scholar] [LinkedIn] [GitHub]

Citizenship: Vietnamese, Date of birth: 20.08.1995

RESEARCH INTERESTS

Generative AI for Education, Diversity & Creativity of LLMs, Reinforcement Learning

EDUCATION

- **PhD Candidate** 2022–Present
Max Planck Institute for Software Systems (MPI-SWS), Germany
ELLIS PhD Program
Supervisor: [Adish Singla](#)
Co-supervisor: [Sebastian Tschiatschek](#)
- **Joint M.Sc. in Big Data Management and Analytics** 2019–2021
Université Paris-Saclay, France; Universitat Politècnica de Catalunya, Spain;
Université Libre de Bruxelles, Belgium
Mention: Grande Distinction
Thesis: *Reinforcement Learning-based Meta-learning from Learning Curves*
Supervisor: [Isabelle Guyon](#)
Co-supervisor: [Lisheng Sun-Hosoya](#)
- **B.Sc. in Information Technology (Computer Science)** 2013–2017
Vietnam National University, Hanoi, Vietnam
Mention: High Distinction
Thesis: *A Method for Generating User Interface Interaction Scenarios in Automated Testing*
Supervisor: [Pham Ngoc Hung](#)

SELECTED PUBLICATIONS

- **Manh Hung Nguyen**, Sebastian Tschiatschek, Adish Singla. *Diversifying Multiple Generative Agents by Aligning with Human Populations*. Conference on Language Modeling (COLM), 2026.
- **Manh Hung Nguyen**, Sebastian Tschiatschek, Adish Singla. *Enhancing Diversity of LLM-Generated Educational Tasks*. Educational Data Mining (EDM), Poster, 2026. [\[paper\]](#)
- **Manh Hung Nguyen**, Victor-Alexandru Padurean, Alkis Gotovos, Sebastian Tschiatschek, Adish Singla. *Synthesizing High-Quality Programming Tasks with LLM-Based Expert and Student Agents*. International Conference on Artificial Intelligence in Education (AIED), 2025. [\[paper\]](#)
- **Manh Hung Nguyen**, Sebastian Tschiatschek, Adish Singla. *Large Language Models for In-Context Student Modeling: Synthesizing Student’s Behavior in Visual Programming*. Educational Data Mining (EDM), 2024. [\[paper\]](#)
- **Manh Hung Nguyen**, Lisheng Sun-Hosoya, Isabelle Guyon. *Meta-learning from Learning Curves for Budget-Limited Algorithm Selection*. Pattern Recognition Letters, 2024. [\[paper\]](#)
- Dustin Carrión-Ojeda, Mahbubul Alam, Sergio Escalera, Ahmed Farahat, Dipanjan Ghosh, Teresa Gonzalez Diaz, Chetan Gupta, Isabelle Guyon, Joël Roman Ky, Xian Yeow Lee, Xin Liu, Felix Mohr, **Manh Hung Nguyen**, Emmanuel Pintelas, Stefan Roth, Simone Schaub-Meyer, Haozhe Sun, Ihsan Ullah, Joaquin Vanschoren, Lasitha Vidyaratne, Jiamin Wu, Xiaotian Yin. *NeurIPS’22 Cross-Domain MetaDL Challenge: Results and Lessons Learned*. Conference on Neural Information Processing Systems (NeurIPS), 2022. [\[paper\]](#)
- **Manh Hung Nguyen**, Lisheng Sun-Hosoya, Nathan Grinsztajn, Isabelle Guyon. *Meta-learning from Learning Curves Challenge: Lessons Learned from the First Round and Design of the Second Round*. Complex Feedback in Online Learning Workshop at ICML, 2022. [\[paper\]](#)

- **Manh Hung Nguyen**, Lisheng Sun-Hosoya, Nathan Grinsztajn, Isabelle Guyon. *Meta-learning from Learning Curves: Challenge Design and Baseline Results*. International Joint Conference on Neural Networks (IJCNN), 2022. [\[paper\]](#)
- **Manh Hung Nguyen**, Nathan Grinsztajn, Isabelle Guyon, Lisheng Sun-Hosoya. *MetaREVEAL: RL-based Meta-learning from Learning Curves*. Workshop on Interactive Adaptive Learning at ECML PKDD, 2021. [\[paper\]](#)

WORK EXPERIENCE

- **Visiting Researcher, University of Vienna, Austria** *Mar.–May 2026*
Working on dynamics of collective diversity in human-AI co-creation for creative tasks.
- **Researcher, ChaLearn, USA** *Nov. 2021–Jul. 2022*
Designing and organizing Meta-learning competitions at IEEE WCCI 2022 and AutoML-Conf 2022.
- **Research Intern, Inria, France** *Apr.–Aug. 2021*
Working on RL-based meta-learning from learning curves as a REVEAL game.

TEACHING & ACADEMIC SERVICE

- **Program Committee Member & Reviewer**
ARR 2026, COLM 2026, HCOMP 2026, AIED 2026, EDM 2026, Pattern Recognition Letters 2025, ISSEP 2025, and KSE 2025
- **Teaching Assistant**
Generative AI for Creativity, Saarland University (Summer 2026)
Generative AI for Education, Saarland University (Winter 2025)
Advanced Programming, Vietnam National University (2017–2019)
Software Engineering, Vietnam National University (2017–2019)
Object-Oriented Programming, Vietnam National University (2017–2019)

HONORS & AWARDS

- **Erasmus Mundus Joint Master Scholarship**, fully funded by the European Union *2019*
- **Toshiba Scholarship** for Outstanding Student, Toshiba Corporation *2018*
- **2nd Prize**, Scientific Research Conference for Students, Faculty of Information Technology, VNU *2017*
- **3rd Prize**, Scientific Research Conference for Students, VNU *2017*
- **Excellent Bachelor’s Thesis Award**, VNU *2017*
- **Annual Scholarship** for Outstanding Students, VNU *2013–2017*
- **Pony Chung Scholarship**, Pony Chung Foundation *2014*
- **3rd Prize**, Provincial Programming Competition for Gifted High School Students, Hung Yen *2013*

LANGUAGE SKILLS

English (C1), German (A1), Vietnamese (Native)

TECHNICAL SKILLS

Programming languages: Python, Java, C/C++

Tools and platforms: AWS, Prolific/MTurk, Linux, SLURM, Docker, Heroku
